PROJECTS

Amazon Clone using Reactjs
Developed Amazon clone using ReactJS, showcasing strong proficiency in frontend web development, responsive design, and the implementation of dynamic features such as product listings, user authentication, and cart management.

Text summarizer
Implemented a text summarization application using LexRank and Latent Semantic Analysis (LSA), demonstrating proficiency in natural language processing (NLP).

AgroAdvice-Crop Recommendation System
Developed a Crop Recommendation System using Django, integrated with Support Vector Machine (SVM) for accurate crop suggestions.

Smart Dustbin
Engineered a Smart Dustbin IoT product with mobility features, showcasing expertise in hardware and software integration.
